Periodic Detainees	iv
Appendix	v

Explanatory Notes

General Information

1. This interim publication contains summary statistics of inmates held in custody in gazetted correctional centres in New South Wales at midnight on the 30th June 1995. Those inmates sentenced to periodic detention were included in the census data only they were under detention on the weekend prior to Friday 30th June 1995. Prisoners on the Work Release II programme (under which they live at home and work at prison) were also included. A full publication to these data will be published in due course.

2. A New South Wales Inmate Census was conducted as part of the First National Australian Prison Census for the 30th June 1982. The proposal for a national Prison Census first emerged at a Correctional Administrators meeting in Melbourne in September 1980 as an offshoot from a review of correctional statistics. Preliminary technical discussions were held in December 1980 and a formal proposal went to the Ministers Conference held in New Zealand in April/May 1981. The Ministers discussed the proposed census at some length and finally agreed the conduct of the first Australian National Prison Census and that an Inmate Census should continue to be conducted annually.

Concept of an Episode of Imprisonment

3. The statistics relate to inmates held in custody on 30 June 1995, in respect of their "current episode" of imprisonment. Basically, an episode is a continuous period in a Correctional Centre. In distinguishing between the current and any previous episode of imprisonment the following rules were applied:

- a: An episode was regarded as terminated by:
 - i. release of the inmate to freedom, including release on parole or licence where the person had not returned to a Correctional Centre in breach of parole or licence by the census date;
 - ii. release to a court or the police where the person is subsequently freed without having been returned to a Correctional Centre;
 - iii. release on bail, or a bond, or to immigration authorities;
 - iv. transfer to an institution other than a Correctional Centre (e.g. a psychiatric hospital); and
 - v. escape from a Correctional Centre, where the person had not been returned to prison by the census date.

- b: An episode was not regarded as terminated by:
 - i. a transfer between Correctional Centre;
 - ii. release to a court or to police where the inmate is returned to a Correctional Centre within a day or so for the same offence(s);
 - iii. change in the inmates legal status e.g. when a remand inmate is sentenced, or when a sentenced inmate appeals against his conviction or sentence;
 - iv. escape from a Correctional Centre when the inmate had been returned to a Correctional Centre by the census date; or
 - v. release on parole or licence where the inmate had been returned to a Correctional Centre in breach of parole or licence by the census date.

Legal Status

4. For the purpose of this report, inmates have been classified to the following seven legal status categories:

- i. Unconvicted (awaiting court hearing/trial/extradition)
- ii. Convicted but awaiting sentence
- iii. Awaiting deportation
- iv. Awaiting result of appeal against conviction or sentence
- v. Under sentence - no appeal
- vi. Detained as a Forensic patient
- vii. Civil prisoner

Classification of Offences

5. For the National Prison Census, the offences for which prisoners were held at 30th June 1995 were classified according to the Australian National Classification of Offences (ANCO). In the present report, however, offences have been classified according to the Second Revision of the New South Wales Classification of Offences and of Care and Protection Orders for Children. This classification was developed by the NSW office of ABS in collaboration with State authorities and has been used in NSW Correctional Centres and courts statistics since 1973.

6. As a general rule, a legal charge of attempting, conspiring, or inciting to commit a crime, or aiding in the commission of, or participating as an accessory before the fact, to a crime, is classified to the offence category to which the crime so attempted, etc. is assigned. All cases of accessory after the fact to a crime are assigned to the category "Accessory after the fact". While the Classification has, of necessity, been abbreviated in the tables that follow, it is reproduced in full as an Appendix of this publication.

Determination of Most Serious Offence

7. Although an inmate may be held in a correctional centre for a number of different offences, only the most serious offence in the current prison episode was recorded in these statistics. This was basically the offence for which the longest sentence was passed for a single count, ignoring undecided appeals. Where no sentence had been passed at 30 June 1995, or two different offences had equal sentences, the offence with the lowest (NSW) offence code number was chosen.

Type of Sentence

8. This item relates to the aggregate sentence imposed (see below). The category "Indefinite" refers to all aggregate sentences where a maximum term is specified and a minimum term or non-parole period is also set.

Level of Court

9. This item represents the level of court of sentence, or of most recent remand in custody, for the most serious offence (see above). Appeal courts were recorded only where such courts have altered the length of sentence appropriate to the most serious offence.

Aggregate Sentence Imposed

10. This item represents the longest period that a person may be detained under sentence in the current episode. Charges pending that are likely to extend the current episode are ignored. Cumulative sentences are taken as equal to their united length. Concurrent sentences are taken as equal to one of them, or to the longer if they are of unequal length. Where sentences 'overlap', i.e. parts of the sentences are concurrent, the concurrent periods are counted only once. In the case of the prisoners serving the balance of a sentence after the revocation of parole or licence, the whole of the original sentence imposed was included rather than just the balance of the sentence.

Sentence Served

11. 'Sentence Served' relates to inmates who have had a sentence passed, and has been calculated as the period elapsed between the date (aggregate) sentence commenced and 30 June 1995. Note that, for inmates with parole or licence revoked or recaptured escapees, the 'sentence served' as calculated for these statistics would include the time spent outside prison between release or escape and return, and thus overstate the actual time served towards the sentence.
